

EDU

The Edu auditorium seats have molded plywood seats and backs. Edu takes up less than 300 millimeters of depth and so it is especially suitable for smaller spaces.

Construction: Steel tube 30 x 40 mm. The counterweight under the seat. 12 - 15 mm plywood seat and back.

Writing tablet: Fixed table on the back of the chair. Foldable tablet under the armrest.

Armrests: Wooden armrest straight or L shaped or without armrest.

Foams: 30 mm in the seat and 20 mm in the back.

Angle of back: 11 degrees.

Material description: Backrest and seat: wooden parts lacquered or stained or laminate coated. Upholstered or without upholstery.

Wooden parts: Birch, beech, ash, maple, oak etc.

Metal parts: Epoxy painted with the desired RAL colour.

Fabric demand: 0.65 m / pcs
