

ODEON

The Odeon is a seat designed by Jouko Järvisalo. It has good ergonomics and can accommodate a writing top inside the armrests.

Construction: Side panels 50 mm. The seat underside plywood, perforated or upholstered. Back plywood 9 mm.

Writing tablet: In the side panel or on the back of the seat.

Armrests: On the side panel.

Foams: 50 mm in the seat shaped. In the back 80 and 40 mm shaped.

Angle of back: 17 degrees.

Material description: Backrest and seat: seat upholstered on both sides or with plywood seat bottom, backrest upholstered with plywood background.

Frame: wooden side panel. Foldable writing tablet inside the side panel or on the back of the seat.

Wooden parts: Birch, beech, ash, maple, oak etc. Lacquered or stained with the desired colour.

Metal parts: Epoxy painted with the desired RAL colour.

Fabric demand: 1.2 m / pcs
